EXPLANATIONS:

- (1) Revenue forecast for State Fair Operations is consistent with and reflects a return to pre-pandemic revenue generation levels, as the amusement park and rides industry is exhibiting price inelasticity.
- (2) Revenue forecast for Interim Events is consistent with the exhibition and events industry's return to pre-pandemic revenue generation levels.
- (3) The AESF was recipient of federal funds transferred in, specifically related to the Covid-19 pandemic. These were one time transfers and not expected in future years.
- (4) Revenue forecast for State Fair Operations is consistent with the amusement park industry's compound annual growth rate projection of nine percent for FY 2023
- (5) Revenue forecast for Interim Events is consistent with the exhibition and events industry's compound annual growth rate projection of three percent for FY 2023
- (6) The State Fair Operations and fnterim Events revenue forecasts in (4) and (5) above is consistent and continues through FY2024.

Justification for Increase in Appropriation - FY 2023

Temp Employee Staff-Wage Compression

Background:

Proposition 206, approved by Arizona voters on November 8, 2016, raised the Arizona minimum wage effective on January 1, 2017. Further, as a result of proposition 206, accelerated increases, in excess of those expected under proposition 202 (approved in 2006), set the Arizona minimum wage at \$15 beginning January 1, 2021: the minimum wage will continue to increase with the cost of living. These and continued increases in the minimum wage has caused wage compression

Assessment of Impact on Temporary Staffing at the Arizona Exposition and State Fairgrounds:

Arizona state agencies are exempt from paying employees the state minimum wage but are required to pay the lower federal minimum wage. Yet, not paying at least the increasing minimum wage offered by other employers creates a disparity and has created wage compression, which occurs when there is little difference in pay between employee positions regardless of differences in respective knowledge, skills, experience, or abilities.

AESF continues to struggle with demands by venue rental clients to improve the quality of employees, reduce call offs and attract more highly experienced temporary staffing. With other entry level job employers, like fast food establishments, offering wages even higher than minimum wage, it is very difficult to attract quality candidates without offering more than minimum wage. AESF feels that offering anything less than minimum wage would effectively render the agency unable to maintain staffing levels that would support operations and contractual obligations. These positions include, Customer Service Representatives who function as the first point of contact for most visitors to the facility, provide detailed information to guests and secure the perimeter from unapproved entrance to events. It also includes Admission and Parking Sellers who are in cash handling positions selling tickets and reconciling revenues against sales. Also Parking Attendants that work in traffic lanes in the parking lot to direct traffic and protect pedestrians traversing the parking lots are included. General Operations Laborers who perform maintenance and facility upkeep, setup and maintain special events and the fair and provide janitorial upkeep are included as well. These positions work long hours and are highly physically demanding. While these positions are temporary in nature, they carry the need for responsible, accurate and dedicated employees.

In considering the effect of allowing the current wage compression to continue, we believe that not only would we be unable to attract an adequate workforce, we believe we would see a reversal in the improvements we were experiencing with our current staff. Further assessment led to concerns the negative impact to staff

morale would lead to degradation in performance that would directly result in a budgetary impact by requiring deeper staffing and longer hours to accomplish the same task.

Budget Impact:

AESF is a self funded agency responsible for generating revenues sufficient to cover expenditures. There are two areas of impact to our budget: First, the availability of funds to underwrite the increase and second the availability of appropriation.

Without an increase in appropriation adequate to cover the necessary increase in wages AESF success and future performance will be dramatically negatively impacted. Ultimately, operational realities require increase to wages. Without appropriation increase programs will suffer and will lead to loss of revenue. We estimate recovering, through Interim Client Billings, 35 percent of temporary staff wages, to include \$157,500 of this wage increase for temporary employee.

It is anticipated that adequate revenues will be generated to cover the cost of the wage increase. However, without an adjustment to the FY 2023 appropriation, there will be an impactful appropriation shortfall that would cripple the agency's ability to serve its customers and meet statutory obligations.

At this time, we have not been able to assess the full impact to third party vendors that provide goods and services to the agency. This increase serves to further compound effects to appropriation.

Request for Appropriation and Budget Increase:

To relieve the negative impact to the agency as a result of wage compression the agency is requesting a non-lapsing increase to the FY 2023 budget appropriation of \$526,500.00; consisting of \$450,000 of Personal Services and \$76,500 of Employee Related Expenses.

Justification for Increase in Appropriation - FY 2023

Cost of employee retention and increased new hire salary

Background:

Over the last two years, the agency has experienced the loss of 12 permanent employees that can be directly attributable to non-competitive wages. This represents over 25 percent of the total number of full-time employees.

Assessment of Impact on Staffing at the Arizona Exposition and State Fairgrounds:

The agency is struggling with high turnover attributable to non-competitive wages or lack of success as a result of hiring under qualified employees willing to work within the offered pay ranges. Of the current staff, six employees have less than three years with the agency and only nine have been employed by the agency for more than five years. The agency has 41 full-time permanent employee positions. Currently, there are 21 vacant positions. Recruiting efforts continue to be unsuccessful and greater salary ranges are needed to attract high-quality employees experienced in the fields needed to run the agency. In order to offer competitive wages that attract qualified employees and to retain current employees, the agency anticipates an increase from previous wages and parity adjustments to cost approximately \$225,000 annually which represents an increase of approximately 10 percent.

Budget Impact:

AESF is a self funded agency responsible for generating revenues sufficient to cover expenditures. There are two areas of impact to our budget. First, the availability of funds to underwrite the increase and second the availability of appropriation. It is anticipated that adequate revenues will be generated to cover the cost of the requested wage increase.

Without an increase in appropriation adequate to cover the necessary increase in wages AESF success and future performance will be dramatically impacted. Without appropriation increase excess turnover, unsuccessful recruiting efforts or the hiring of under qualified employee will continue. These factors have a direct negative effect on AESF programs; leading to loss of revenue and development. Without an increase to the FY 2023 appropriation, there will be an impactful appropriation shortfall that would cripple the agency's ability to serve its customers and meet statutory obligations.

Request for Appropriation and Budget Increase:

To relieve the impact of non-competitive wages levels to the agency, the agency requests a non-lapsing increase to the FY 2023 appropriation of \$315,000; consisting of \$225,000 of Personal Services and \$90,000 of Employee Related Expenses.

Justification for Increase in Appropriation - FY 2023

Capital Improvements

Background:

The following HVAC system components, of the Coliseum Arena, are in overdue need of replacement: The Electrical Service Entrance Section (SES), The Air Handlers, and the Three Water Return Pumps. In addition to replacing these components of the Coliseum HVAC the AESF has additional critical capital improvement projects to initiate in FY2023.

Assessment of Impact on Capital Improvements at the Arizona Exposition and State Fairgrounds:

The Electrical Service Entrance Section (SES) in the Coliseum is over 50 years old and far beyond life expectancy. The cost to replace the unit is approximately \$1,000,000. In addition, the air handlers in the Coliseum arena are past life expectancy and it is estimated the cost will be approximately \$600,000 to replace with newer more efficient units that also offer the ability to replace sections in the event of a failure ensuring at least some level of operation at all times. The three water return pumps that are part of the HVAC System for the Coliseum are past life expectancy and one of the units has failed with the other two in jeopardy of failure at any time. Failure of these units would result in total HVAC failure. The cost to replace the pumps is approx \$225,000. In addition, the ASEF has critical capital improvement projects of \$1,000,000.00 to initiate in FY2023.

Budget Impact:

AESF is a self funded agency responsible for generating revenues sufficient to cover expenditures. There are two areas of impact to our budget. First, the availability of funds to underwrite the increase and second the availability of appropriation.

It is anticipated that adequate revenues will be generated to cover the cost of the increase in the non-lapsing capital improvement appropriation of \$1,000,000. However, without an adjustment to the FY 2023 appropriation, there will be an impactful appropriation shortfall that would cripple the agency's ability to complete necessary and overdue capital improvement projects, thus hampering the agency's ability to serve its customers and meet statutory obligations.

It is anticipated that generated revenues will not be adequate to cover the \$2,000,000 cost of the HVAC System component replacements. However, without an adjustment to increase the general fund appropriation to cover the Coliseum arenas' HVAC System's component replacement, there will be an impactful funding and appropriation shortfall that would cripple the agency's ability to complete the required replacement, thus hampering the agency's ability to serve its customers and meet statutory obligations.

Request for Appropriation and Budget Increase:

The agency is requesting a non-lapsing increase to the FY 2023 capital improvement appropriation of \$1,000,000 and a onetime general fund capital improvement funding and appropriation of \$2,000,000

Revised Performance Measure Descriptions

The following performance measures are budget related. Unlike non-budget related performance measures, agencies can't change the last published description themselves. Therefore, they've entered a revised description which should be reviewed. If appropriate, update the performance measure's description with the agency's revised description in OSPB's "centralized" AZIPS. Be sure your team leader, OSPB management and JLBC have approved of the change, since this will be published. This report checks for revisions across all agencies. Please communicate with the agency about the outcome of their request to add, change or delete performance measures and/or their descriptions.

Agency 5-Year Plan

Issue 1 Funding facility improvements

Description: Given a large, aging facility, the Arizona Exposition and State Fair (AESF) must constantly perform building renewal and capital improvement projects on the Fairgrounds in order to maintain functionality, keep it viable for rental, and ensure the safety of the visiting public. AESF has 26 structures and approximately 80 acres of parking lot/grounds to maintain, covering a total of 96 acres.

Solutions:

AESF plans to tackle large projects in a multi-phase method, as it can afford over the next five years. Projects will be prioritized by health, safety and welfare of guests, stakeholders and employees, then by business operational needs. AESF contracts with ADOA's General Services Division for large project management. Projects will then be broken into phases based on financial resources available and the greatest priority within each project on a case-by-case basis. AESF's capital maintenance and improvement plan's execution is contingent upon available funds and sufficient appropriation.

Issue 2 Improve the Fair's product

Description: Given a land-locked location at 19th Avenue between Grand, McDowell, Encanto and 19th Avenue, the Arizona State Fair (ASF) is limited in ways it can expand its current operations to offer more entertainment and better entertainment to our customers. As a self-funded state agency, and to ensure future operation, the Fair must continue to innovate to maintain the existing customer base, as well as appeal to a new generation of Arizonans to add them as new customers. Innovation at the current location requires investment in the Fair product.

Solutions:

The most effective way to currently grow the Fair's offerings is to increase revenues so ASF can afford better quality entertainment and more entertainment overall. The strategy to increase Fair revenues involves increasing overall attendance, which has a positive effect on parking, gate admissions, food percentage, and ride revenue streams. AESF intends to increase attendance by attracting new visitors, increasing repeat visits with current guests, creating attractive promotions, and offering exciting entertainment options. In addition, ASF plans to continue to identify new revenue streams and partner with local businesses in sponsorship and vendor opportunities.
